HELLO FROM Wrinkledoctor

Returning to a life we once took for granted, we find ourselves reflecting on the things that truly define us and contribute positively to the the lives of our friends and family.

Mutual respect, consideration and compassion are actions that we not only aspire to but actually enjoy being recipients of. We are blessed with the ability to make this world a better place through even the smallest of actions.

With so much that 2020 has served up, let's all move forward with a strong commitment to each other and ourselves so that we can all be a better us.

SAFETY FIRST

As a Doctor working in the field of cosmetic medicine I am acutely aware of the current health climate in which we work and have implemented new measures to protect you and your family. All procedures and consultations are performed by myself face to face and each patient is screened prior to consultation. All infection control measures are exercised and we encourage phone contact if there are any concerns prior to consultation.
